

E X A N T E

Next Generation
Investment Company

I would like to make you a promise.

I created EXANTE to solve problems. Together with my partners and a team of highly skilled individuals that we put together I set out to tackle the very real problems that I encounter while trading. These are the same problems that you run into every single day.

What I wanted was complete control. What I wanted was a unified interface no matter where or what I'm trading. What I wanted was simplicity. Single reporting. No red flags. That's what EXANTE is and that's what it does.

EXANTE is not some abstract digital entity made up off redesigned ideas from other people. It's something that we created ourselves and maintain and perfect every single day. It is something we use ourselves — not because we own it, but because it is the only platform out there that works the way professional traders want to work.

Here's my promise to you. I promise that EXANTE will take care of all your trading needs. I promise that it will make your life easier. And and I personally promise that me and my team will always take care of you no matter what you need.

Alexey Kirienko, CEO

Portomaso Business Tower,
St Julian's, Malta

EXANTE is a European investment company established in 2011. Its headquarters are located in St Julian's, Malta in the heart of the Mediterranean.

EXANTE is fully licensed to provide financial services, including trading and investment. The company works with a wide range of products and services — from solutions for retail clients, to tailored offerings for institutional counterparts.

EXANTE's history dates back to the early 2000's when a group of trading enthusiasts began to develop their own trading platform. It has since evolved into a full-scale trading tool that is accessible from desktops, web browsers and mobile applications.

Today EXANTE provides online trading access to over 50 markets worldwide. Clients can invest in more than 35,000 stocks, 20,000 online options and

futures contracts on stocks, commodities, indices, as well as in thousands of hedge funds, bonds, currency pairs and metals.

EXANTE's trading platform was created to meet the rapidly changing needs of investors and traders and to resolve the most common inconveniences faced in everyday trading. It regularly picks up industry awards from leading industry publications, including Forbes, Finance Malta and others.

While the trading platform remains at EXANTE's core, the business now entails much more. We offer both individual and corporate services, with plenty of opportunities for further growth in both fields.

Technological advancements keep EXANTE at the cutting edge of a dynamic industry and the company's diversified product and service offerings

continue to exceed the capabilities of any other regular investment company. Extensive infrastructure with over 400 servers, new platform features introduced daily, personally tailored solutions paired with the ultimate client-oriented approach make EXANTE a uniquely powerful, yet personalised industry leader.

The EXANTE team is made up of more than 250 specialists from all over the world, each contributing their own expertise to provide the highest quality of service available.

A one-stop shop

Enjoy access to the whole world of finance. Use your investment account as a regular means of payment by linking a card to it.

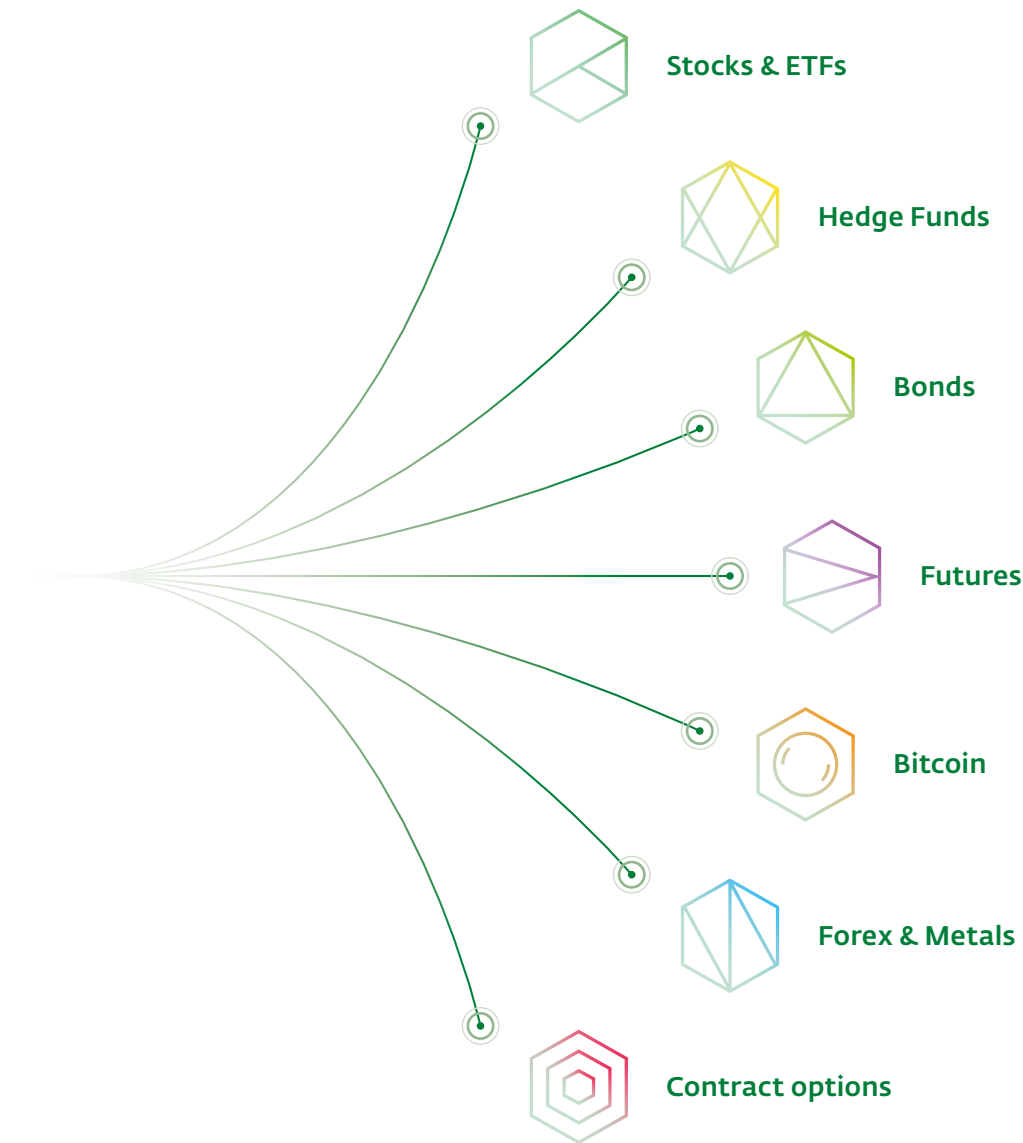

E X A N T E

50,000

Our FIX API supports the fastest possible execution and data transfer. Benefit from the direct connection to all major exchange data centers!

Make orders and close positions wherever you are

Benefit from the latest technologies in a smart design

Control your account at lightning speed, right from your device

Excel trading connector

EXANTE has a unique offering for anyone who has ever wanted to try algorithmic trading but felt held back by a lack of programming skills. Creating your own trading robot is simpler than ever: just take MS Excel, install EXANTE connector, and implement your strategy with the simple Visual Basic macros. Exciting opportunities for algorithmic trading in an understandable format.

Borrow. Earn. Spend. Transfer.

All you need — on one account.

Issue bonds on the Malta Stock Exchange or borrow against a portfolio.

Create a well-balanced and diversified portfolio.

Make purchases with a MasterCard card.

Transfer, receive and convert payments in any currency.

Borrow

Raise capital on the Malta stock exchange: issue your own debt securities and get listed on the market. In just five steps and three months you can have your own bonds issued on the MSE!

Don't want to list your securities? No problem. Issue bonds and stay private.

Earn

Invest online: choose from a unique selection of exchange-traded and OTC assets. Join referral programs, use the technology as a White Label, build your applications up on the data feed from 50+ markets, or manage client portfolios as an asset manager on the EXANTE platform. There are so many options at hand, just choose your own way!

Spend

No limits, no boundaries: link a MasterCard card to your trading account and use your money as you like. No more excessive money transfers, commissions or waiting times. Your money is yours and you have total control over it, whether you invest in promising stocks on the NYSE or buy coffee at the nearest cafe.

Transfer

Money transfers, currency conversion, asset purchases — with EXANTE it can all be done with one account, minimal commissions and true market rates. Problems, no. Convenience, yes!

Working for you
all over the world

EXANTE has offices
around the world,
each of them hosting
experts of EXANTE
and the financial
markets available
for you.

Reliable investment partner

The company holds a Cat. II Licence No. IS/52182 issued by the MFSA. Moreover, we are authorised to provide services in the United Kingdom by the Financial Conduct Authority (FCA).

We strictly obey the guidelines of our regulators as to compliance control and risk management. Account segregation, transparent reporting and regular audits by KPMG all contribute to our security and reliability.

The European regulation guarantees transparency of procedures and as a result, the safety of client assets. Our commitment to maintaining the highest degree of regulatory compliance allows us to maintain a top quality of service and client experience.

Our values

Innovation

Our main competitive advantage is pioneering new technology. History has shown that well implemented innovations are less costly than potential future losses incurred by technological stagnation.

Transparency

We are constantly improving our services in line with our values to help our clients and partners to reach their goals. That's why we are open to discussion when any question arise and it is why we are able to provide timely, relevant, and accurate information on any matter.

Security

Above all, we care about security — whether it be the security of your investments, security of order execution, or security of your important data. We take personal responsibility in everything we do.

Quality

Expertise and professionalism are the foundations of client satisfaction, which is our top priority. Whatever we do, we maintain the highest possible quality standards.

Honesty

The optimal strategy for developing and keeping a long-term relationship is honesty. That's why honesty combined with fairness and responsibility are our main properties. It comes from our confidence and trust in our clients, employees and stakeholders.

Advisory board

Joseph Zammit Tabona

The board’s head, Joseph Zammit Tabona, has vast experience in financial management. Throughout his career, he served as chairman of the Malta Stock Exchange, the Malta Financial Commission and several other institutions.
